# FSD Pharma Monetizes Non-Core Asset With Sale of Partial Equity Stake in Pharmadrug Inc.

*- Buyer Holds Option to Purchase Additional Shares -*

TORONTO--(BUSINESS WIRE)-- **FSD Pharma Inc. (NASDAQ:HUGE) (CSE:HUGE.CN) (FRA:0K9A)** ("FSD Pharma" or the "Company") today announced the sale of 5.0 million common shares of Pharmadrug Inc. (CSE:BUZZ) (formerly Aura Health) in a privately negotiated transaction at C\$0.08 per share for cash proceeds of C\$400,000. Under the terms of the sale, the buyer has the option through June 26, 2020 to purchase an additional 5.0 million shares of Pharmadrug at C\$0.10 per share from FSD Pharma for cash proceeds of C\$500,000. Additional transaction details can be found on the SEDI website at [www.sedi.ca/sedi/](http://www.sedi.ca/sedi/).

FSD Pharma's equity position of 13.5 million Pharmadrug shares was established in April 2019 as part of a share exchange transaction. The Company may consider the divestiture of the balance of its equity stake in Pharmadrug through open market transactions.

"We are pleased to finalize this transaction as part of our continuing efforts to strengthen disposable cash on our balance sheet primarily to support our pharmaceutical R&D program. We plan to continue to shore up our cash position by strategically divesting non-cash assets, and raising new capital, either through private placement, debt financing or registered offering of our Class B subordinate voting stock," stated Raza Bokhari, MD, Executive Co-Chairman & CEO.

## **About FSD Pharma**

FSD Pharma Inc. (NASDAQ:HUGE; CSE:HUGE.CN; FRA:0K9A) is a publicly traded holding company, since May 2018.

FSD BioSciences Inc., a wholly-owned subsidiary, is a specialty biotech pharmaceutical R&D company focused on developing over time a robust pipeline of FDA-approved synthetic compounds targeting the endocannabinoid system of the human body to treat certain diseases of the central nervous system and autoimmune disorders of the skin, GI tract, and the musculoskeletal system.

Through its acquisition of Prismic Pharmaceuticals in 2Q19, FSD BioSciences Inc. is also making an effort to help address the opioid crisis by developing opioid-sparing prescription drugs utilizing the ultra micronized formulations of PEA.

The Company has Phase 1 first-in-human safety and tolerability trials for its lead candidate, FSD 201 micro-PEA, currently underway in Australia by principal researcher Jason Lickliter, MD, Chief Medical Officer of Nucleus Network.

FSD's wholly-owned subsidiary, FV Pharma, is a licensed producer under Canada's Cannabis Act and Regulations, having received its cultivation license on October 13, 2017, and its full Sale for Medical Purposes license on June 21, 2019. The Company is licensed to cultivate cannabis in approximately 25,000 square feet of its facility in Cobourg, Ontario.
